Your children's lifestyle concept store **Jellybean**

You are a fan of organic grub and eco chic onesies for the wee one, but when it comes to the concept of reusable diapers...you find yourself hugging tightly to your plastic old-faithfuls!

Converting to cloth is easy, and Hong Kong based [Lulu](#) will take care of you! You will quickly realize how easy, eco-fab, healthy, stylish, and economical the green swap can be for your fam. [Lulu Hong Kong](#) also offers free in-home and office consultations (including the basics on using, washing, and styling with reusable diapers). They work with local HK brand and celeb fave, [Charlie Banana](#), and supply everything you need to get sorted from the super cute diapers to the pails.

Give it a go!

Why Little Steps loves it: Getting started on reusable diapers has never been so easy!

Who it's perfect for: Anyone looking to get over their fear of reusable diapers. Let Lulu show you the way...

What else: Saving money on the agenda for 2012? Did you know the average family spends around HK\$23,400 on each child's disposable diapers over 2 years? Ouch!
